Customer Journey Map

PocketSmart AI helps budget-conscious users plan Home Interior, Party Planning, and Jewelry purchases through personalized, budget-aware recommendations.

Journey Phase	Stage 1 Discover & Enter Needs	Stage 2 Analyze & Recommend	Stage 3 Compare & Decide
Actions What does the customer do?	• Selects planning category • Enters budget • Adds preferences/style/occasion	• Reviews AI-generated suggestions • Adjusts budget/preferences • Explores recommended options	• Compares shortlisted options • Checks estimated spend/value • Selects preferred option or plan
Touchpoint What part of the service do they interact with?	PocketSmart AI interface Budget and preference input Category selection	AI recommendation engine Budget allocation Personalized recommendation screen	Comparison/recommendation results Product/service links or details Final planning view
Customer Thought What is the customer thinking?	"Can I plan this within my budget?" "What information should I provide?"	"Are these recommendations suitable for me?" "Can I stay within my budget?"	"Which option gives the best value?" "Am I making a confident choice?"
Customer Feeling What is the customer feeling?	Curious Slightly overwhelmed Hopeful	Engaged Relieved More confident	Confident Satisfied Ready to decide
Process Ownership Who is in the lead?	PocketSmart UI / User	PocketSmart AI recommendation service	PocketSmart recommendation & comparison experience
Opportunities How can we improve this stage?	• Simple input form • Clear budget guidance • Optional image/style input	• Explain recommendation reasons • Keep total within budget • Allow quick preference changes	• Show side-by-side comparison • Highlight best-value options • Provide clear next steps
