

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	PocketSmart AI
Maximum Marks	1 Mark

The template asks for a structured flow, feature highlights and responsibilities. █filecite█turn15file10█L7-L23█

Demo Plan

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem	Explain the budget-planning problem and target users.	2	David Ainos R
2	Solution Overview	Explain PocketSmart AI, its three use cases and architecture.	3	Darwin L
3	Home Interior Flow	Enter budget/preferences and show recommendation concept.	3	Dhakshan K
4	Party Planning Flow	Show budget allocation and recommendation concept for an event.	3	Deepak P
5	Jewelry + Comparison	Show occasion/style/budget recommendation and comparison concept.	3	Dhakshan K / Deepak P
6	Q&A / Wrap-up	Summarize value, limitations and future roadmap.	2	All members

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Users face too many choices and difficulty staying within a fixed budget.
2	Solution Overview	PocketSmart AI combines budget constraints with personalized recommendations.
3	Live Feature Demonstration	Show category selection, budget/preferences, recommendation, allocation and comparison.
4	Q&A Session	Explain AI approach, data/API assumptions, security, scalability and future enhancements.
